IDE	VS code
Operating Systems	Windows

**Trysol Global Services Pvt Ltd**

### Professional Experience:

Currently Working as Angular Developer in TRYSOL GLOBAL SERVICES PVT LTD.

### About Project:

#### **Project Name: IT Inventory**

Role: ReactJs Developer

**Technologies: HTML5, CSS3, Bootstrap, JavaScript, React.js.**

#### **Description:**

Designed and implemented a comprehensive IT Inventory that revolutionized our company's approach to handling and tracking inventory. This robust system ensures real-time visibility into stock levels, order fulfillment, and product movements. This feature ensures that the organization maintains optimal inventory levels to meet customer demand. Developed an interactive and user-friendly dashboard that provides a quick overview of inventory levels.

#### **Project Name: Hostel Management System**

**Technologies: HTML5, CSS3, Bootstrap, Reactjs.**

#### **Description:**

Designed and implemented Hostel Management System (HMS) aimed at simplifying and automating hostel administration processes. The system features two main interfaces: one for administrators and another for students. The admin interface allows hostel administrators to manage and maintain all student-related information dynamically. Admins can easily add, update, and delete student records, assign rooms, and manage room details. On the student side, the interface provides a seamless user experience, enabling students to view available rooms. This integrated system enhances operational efficiency, minimizes manual effort, and creates a smooth, organized environment for both administrators and students.

### Education:
